

# enCompass Solutions Group

Complete Site Automation  
and Information Technology

## Site Engineering and Commissioning

- PLC Control Systems
- Integrated Drive and Motion Control Systems
- Operator and Human Machine Interfaces
- Industrial Networking Solutions
- Industrial IT Installations
- Web Enabled Data Mining and Reporting Packages

# Industrial Automation

Benefit from our Experience, Talent, and Commitment to Excellence

One of the cornerstones of our business is Industrial Automation. We strive to use the best possible technical solutions to propel our clients ahead of their competition. The enCompass Solutions Group has extensive experience in industrial automation field. We also bring extensive knowledge in the Information Technology arena, allowing us to provide plant-floor integration from the device level to the enterprise.

Our comprehensive, "real-world" application knowledge of proven industrial automation techniques makes us the number one choice for your automation needs. We have extensive experience in many applications which we can leverage to ensure the success of our clients. Our automation systems always use the following as fundamental design criteria:

- Cost effectiveness
- Ease of Operation
- Ease of Maintainability
- Best use of Technology for each particular site
- Extensive use of alarming and automatic notification techniques to allow maintenance personnel to drastically reduce downtime.
- Ease of ERP connectivity
- Compliance with any regulatory commission. i.e. disaster recovery, security or data integrity

# Areas of Expertise

Some of the industries in which we have extensive automation experience are:

- Aerospace
- Automotive
- Engineered Wood Products
- Food and Beverage
- Fresh\Waste Water Treatment Plants
- Material Handling
- Plywood and Veneer
- Pulp and Paper
- Sawmills

The equipment and applications that we have experience with:

- Scalable PLC Systems
- Drive Systems
- Servo/Hydraulic Motion Control
- Process Control Systems
- Complex Machine Control Applications
- Industrial Networking
- SQL Data Storage
- ERP Integration

The enCompass Solutions Group adds value to the latest available technology by partnering with our customers during the planning and implementation phases of automation projects. This results in on-time and on-budget solutions that not only meets the immediate automation requirements, but also allows for very scalable downstream enhancements. Our intent is to have long-term customer relationships to add continuity and transfer knowledge between projects

We can make  
Automation part  
of your World
